

Quarantine or Isolation Daily Checklist

Daily list:

- No contact with other people or pets; do not leave unless medical care is needed; no visitor.
- Temperature taken 2x daily and self-monitored for symptoms
- Self-monitor well-being! Connect with others via social media and get outside!
- Wash hands or use hand sanitizer prior to any interactions with others.
- Do not touch anything that is used by another person of the household. If you must, clean and sanitize all touched items after use. This includes doorknobs, bathrooms, handrails, etc.
- Use a mask and social distancing when passing through a room with other people.
- Eat in a separate location from others.
- Wash hands after using a tissue; do not touch face, eyes, nose, mouth.
- In the chart below, note daily temperatures, any symptoms of illness (such as cough, sore throat, shortness of breath, loss of taste/smell, fever, nausea, chills, vomiting, muscle pain, diarrhea), and affirmation of following the above checklist (yes/no).

Arrival date/start date: _____

Date of COVID test taken on day 3, 4 or 5 _____

Date of vaccinations (start after negative COVID test) _____

Day	Arrival date or date of symptoms or positive test				
	1	2	3	4	5
A.M. Temp & Symptoms					
P.M. Temp & Symptoms					
Complied with daily list above					
Day	6	7	8	9	10
Monitor for Symptoms					
Wear a mask around others					
Use the Isolation and Quarantine Calculator after a positive COVID-19 test, to determine when to return to campus or public settings.					

Following Self-Quarantine or Isolation
