

PTA/OTA 106 Unit 2 Lab 6
Digestive organs/Urinary/Reproductive/Endocrine
Fall 2016

Digestive structures:

1. Esophagus:

Upper Esophageal Sphincter Lower Esophageal Sphincter

2. Stomach:

Cardiac	Fundus,	Body
Lesser Curvature	Greater Curvature	Rugae
Pylorus,	Pyloric Antrum	Pyloric canal
Pyloric Sphincter	Greater Omentum	Lesser Omentum

3. Small Intestine:

Duodenum	Jejunum	Ileum
Ileocecal Sphincter	Plicae Circularis,	Mesentery

4. Large Intestine:

Mesocolon	Cecum	Appendix
Ascending Colon	Transverse Colon	Descending Colon
Hepatic flexure	Splenic flexure	Sigmoid colon
Rectum	Anal canal	Anus
External Anal Sphincter	Internal Anal Sphincter	Mesoappendix
Taenia coli	Haustra,	Epiploic appendages

5. Accessory organs:

Liver Right lobe	Liver left lobe	Gallbladder
Pancreas		

Urinary structures:

1. Organs:

Kidneys	Bladder
---------	---------

2. Ducts and Tubes:

Ureter	Female urethra	Prostatic urethra
Membranous urethra	Penile urethra	

Reproductive structures:

1. Male Organs:

Penis	Glans penis	Prepuce
Corona	Scrotum	Testis
Vas deferens	Ampulla of vas deferens	Seminal vesicles
Prostate gland	bulbourethral gland	

2. Female Organs:

Vulva:

Mons pubis
Prepuce
Vaginal Orifice

Labia majora
Clitoris
Vestibule

Labia minora
External urethral orifice

Vagina:

Vaginal orifice

Rugae

Fornix

Uterus and ovaries:

Fundus
Uterine cavity
Cervical canal

Body of uterus
Cervix
External os

Isthmus
Internal os

Breast:

Nipple

Areola

Mammary glands
