

A REGIONAL MATHEMATICS PROJECT:

TRANSFORMING MATHEMATICS CLASSROOMS THROUGH NUMBER TALKS: A LEADERSHIP ACADEMY

Directed by THE MATHEMATICS EDUCATION COLLABORATIVE (MEC)

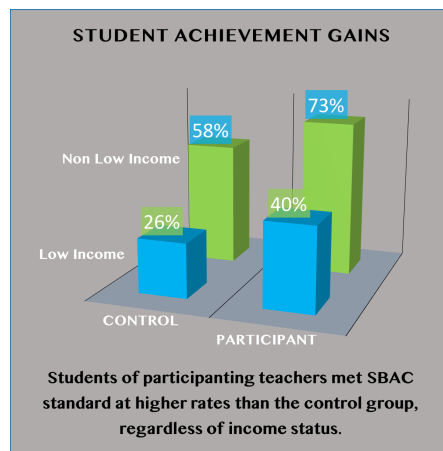

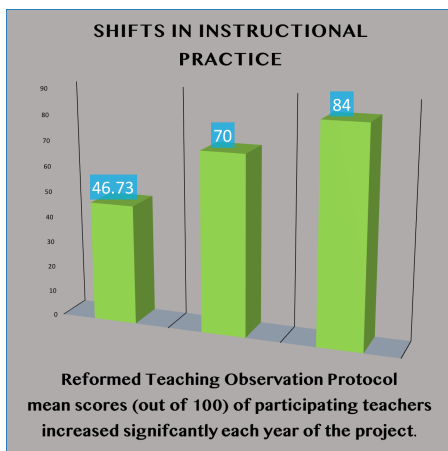

Summer 2017 – Summer 2020

Supporting a network of schools/districts who are...

- preparing to implement Number Talks for the first time or currently using Number Talks and ready to take them to a deeper and more sustainable level
- interested in building the capacity of teachers as leaders
- committed to high quality mathematics education for all students
- engaging their communities to increase understanding and support

MEC Professional Development has Real Impact

Results from the MEC MSP, an OSPI federally funded Math and Science Partnership Grant: <http://www.mec-math.org/mec-msp/>

177 teacher leaders
from

29 WA school districts,
The Community
Colleges of Spokane,
WSU,
and Montana
are

... learning how Number
Talks can transform
mathematics classrooms

...experiencing and
learning how to lead a
series of
2-hour Number Talk
Support Sessions

...joining a regional team
of active and engaged
mathematics teacher
leaders

Leadership Project
Funded by

College Spark
Washington

and

Participating Districts
